

Corrigendum to:  
On a  $\{K_4, K_{2,2,2}\}$ -ultrahomogeneous graph

ITALO J. DEJTER

ijdejter@uprrp.edu*

On the third line of Section 3, page 65, in [1], condition (2) should read:

$$(2) |q_i r_i \cap q'_i r'_i| = 1, \text{ for } i = a, b, c.$$

( $q_i$  and  $q'_i$  appear erroneously as  $p_i$  and  $p'_i$ , respectively, in the published version.)

In addition, two references should be added to those at the end of the second paragraph of the Introduction, as in [2, 3], below.
